AINVISION

Business Development / Strategy Team

Certificate of Internship Completion

This certifies that

Yoonhyuk Cho (조윤혁)

has successfully completed a High School Internship at AINvision from **6 January 2025** to **5 September 2026** *(online)*, contributing to the project "Market Analysis and Pitch Deck Development for Physical AI Perception Sensor Modules" for the Strategy Team.

Key Contributions During the Internship

- Researched the global market size, growth trends, and key players in the Physical AI perception sensor industry, categorizing them into Vision, Tactile, and Force/Torque segments.
- Analyzed the technical specifications and cost structures of 21 existing sensor suppliers to identify market gaps — noting that while vision is a mature $33.5B market, tactile ($9.0B) and force/torque ($2.4B) segments offer higher growth opportunities.
- Drafted and designed a comprehensive investor pitch deck, creating competitive landscape matrices based on product functionality, business size, and platform breadth to visually map incumbents versus new entrants.

Issued this 9th day of September, 2026

Prof. Kyusang Lee	*Dr. Yongjoo Cho*
Supervising Mentor, AINvision	Director, Business Development
